WHY do this? To Help CHARGE Syndrome Children & their families have a day of support. There is nothing that compares to seeing a child smile because they've learned a new skill or achieved a goal in a new activity. Your role consists of making sure each camper is embracing the Texas Lions Camp experience, staying safe and having a great time. Most staff will partner with a CHARGE and their family, serving as their big brother/sister through the camp experience. Some staff will work together to care for our infants and toddlers so that their families can attend special learning and networking sessions.

Each CHARGE child requires one-on-one volunteers to make the retreat a success!
